Omni Rail Colours

- Bottom rail and end caps
- Colours are pre-determined and cannot be overridden

White | Vanilla | Gray/Silver | Bronze | Black

Wand Colours

- Pure White, White, Oak/Natural, Mahogany, Light Gray, Ebony (shown left to right below)
- Colours are pre-determined and cannot be overridden

OPTIONS AND FEATURES

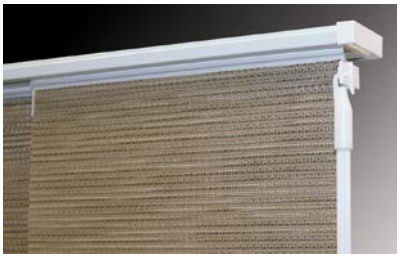

Track/Panel Attachment

- Durable heavy-duty white metal track
- Smooth traversing and quiet operation
- Panels attach to track with heavy-duty velcro that is sewn to backside of each panel. Offers easy panel installation & removal

Wand Control

- Wand is 36" in length (no other lengths are available)
- Pure White, White, Oak/Natural, Mahogany, Light Gray, Ebony (colours are pre-determined and cannot be overridden). Refer to *Colour Charts* for wand colour
- Wand location: Left Stack = Left Wand | Right Stack = Right Wand | Split Stack = 2 Wands (Left & Right)

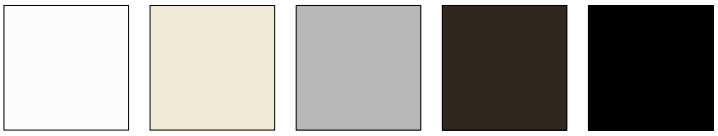

Bottom Rail Options

Heat Sealed (~ 1-1/4")

- Aluminum bar is heat sealed into hem pocket, pocket edges are sealed
- Select fabrics only

Omni Curved (~ 1-1/8")

- Front of rail is fabric wrapped, back of rail is painted metal
- Bottom rail colours are pre-determined and cannot be overriden
- Refer to *Colour Charts* for backside rail colour

White | Vanilla | Gray/Silver | Bronze | Black

Please refer to *Collection Information* charts for Bottom Rail availability

Heat Sealed

Omni Curved (Wrapped)

Deluxe Valance

- Inside Mount only (no returns available)
- Height = 3-5/8"
- Includes matching fabric insert
- Fabric runs the same direction as the panel fabric, cannot be railroaded
- Valances that exceed the Max Fabric Width, the fabric insert will be spliced and will have a centre seam (see image below)

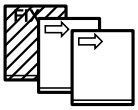

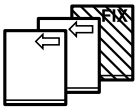

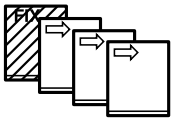

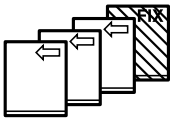

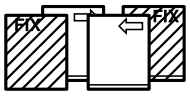

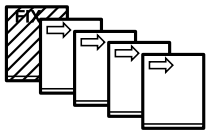

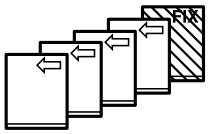

- Fabric insert will be spliced (centre seam) when the overall shade width exceeds Max Fabric Width less 8"

  Example:
  - overall blind width = 110"
  - max fabric width = 115"
  - 115" less 8" = 107"
- Refer to *Collection Information* charts for max fabric width and limitations by fabric

PANEL CONFIGURATIONS

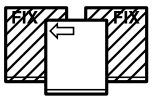

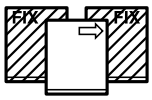

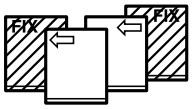

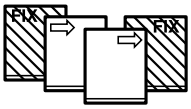

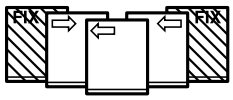

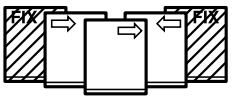

Number of Panels	Overall Width	Stack Position / Configurations (Each stacked side will have 1 fixed panel)		
		Single Stack Configuration Left Stack	**Single Stack Configuration** Right Stack	**Split Stack Configuration** **NOTE:** Comes with two wands (L/R)
2 Panels (1 overlap)	21" - 53-7/8"	**2L** – two panels stack left (2 channel track) 	**2R** – two panels stack right (2 channel track) 	N/A
3 Panels (2 overlaps)	54" - 75-3/8"	**3L** – three panels stack left (3 channel track) 	**3R** – three panels stack right (3 channel track) 	N/A
4 Panels (2 or 3 overlaps depending on number of stacks)	75-1/2" - 83-7/8"	**4L** – four panels stack left (4 channel track) 	**4R** – four panels stack right (4 channel track) 	**2L2R** – two panels stack left, two panels stack right (2 channel track) 
5 Panels (4 overlaps)	84" - 216"	**5L** – five panels stack left (5 channel track) 	**5R** –five panels stack right (5 channel track) 	N/A

Panel Stack Configurations

- Must specifiy panel configuration (example: 2L, 5L, 4R)
- Approximately 3" material overlap when panels in fully closed position
- Each stacking side will have 1 fixed panel
- Individual panel size varies depending on overall shade width & panel configuration
- To calculate stacking width; overall width + (number of overlaps x 3) then divide by number of panels.

Example – 3 panel 75" W + 6 (2 overlaps x 3 = 6) = 81 divide by 3 panels = 27" stacking / panel width

PANEL CONFIGURATIONS

<table>
<tr><th rowspan="2">Number of Panels</th><th rowspan="2">Overall Width</th><th colspan="2">Stack Position / Configurations Option for Split Stack (odd number Panels) and Center Closure front Panel as leading panel
(Each stacked side will have 1 fixed panel on rear)</th></tr>

Panel Stack Configurations

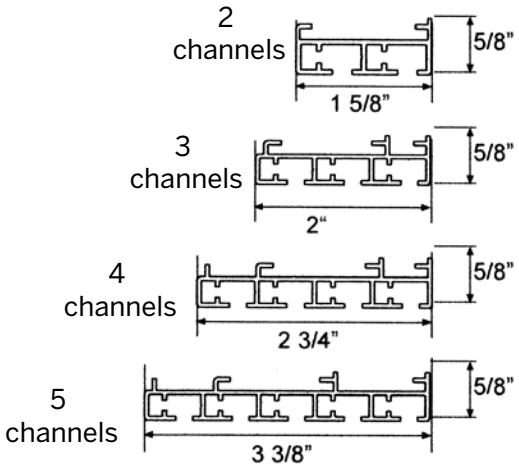

- Must specifiy panel configuration (example: 1L3R, 3L2R)
- Approximately 3" material overlap when panels in fully closed position
- Each stacking side will have 1 fixed panel
- Individual panel size varies depending on overall shade width & panel configuration
- To calculate stacking width; overall width + (number of overlaps x 3) then divide by number of panels.

Example – 3 panel 75" W + 6 (2 overlaps x 3 = 6) = 81 divide by 3 panels = 27" stacking / panel width

TRACK SPECIFICATIONS

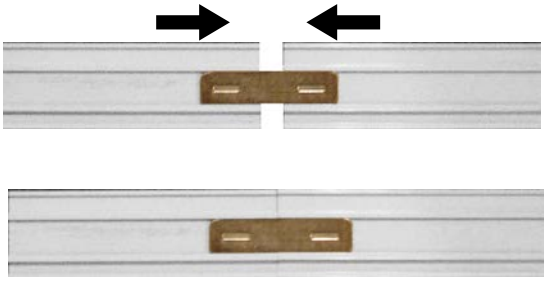

Track

- Durable heavy-duty white metal track
- See *Mounting Depth Requirements* chart below for mounting depth requirements

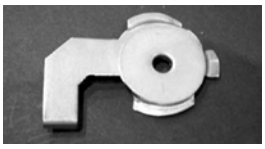

Track Splice

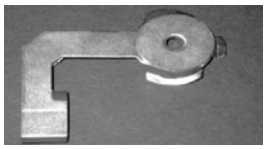

- Automatically comes when ordered over 144" wide – track ships from factory in (2) equal size pieces
- Recommended for windows over 100" (must be requested at time of order)
- Splice plate easily & securely connects separate tracks together to operate as a single track unit

Track Brackets

(A)
Inside / Ceiling Mount
Used on 2 and 3 channel track

(B)
Inside / Ceiling Mount
Used on 4 and 5 channel track

(C)
Outside / Wall Mount
Used on all tracks

Mounting Depth Requirements

Number Track Overall	Inside Mount (IM) Flush Mount	Inside Mount (IM) W/ Valance Flush Mount	Inside Mount (IM) Minimum	Outside Mount (OM) Wall	Outside Mount (OM)
Channels	**Depth**	**Depth**	**Depth**	**Min Flat Surface**	**Projection**
2	2-1/2"	3-1/2"	1-3/4"	2-1/2" – 3-1/8"	4-1/8" – 4-3/4"
3	2-3/4"	3-3/4"	1-3/4"	2-1/2" – 3-1/8"	4-1/2" – 5-1/4"
4	3-1/2"	4-1/2"	1-3/4"	2-1/2" – 3-1/8"	5-1/4" – 6"
5	3-1/2"	4-1/2"	2"	2-1/2" – 3-1/8"	5-1/8" – 7-3/8"

Deductions

	Inside Mount (IM)/Ceiling Mount	Outside Mount (OM)
Headrail Width	- 1/4"	ordered width
Overall Fabric Width	- 1-3/8"	- 7/8"
Overall Height	- 1/2"	ordered height

Split Draw	54"	216"	12"	144"	- 1/8"	+ 1/8"

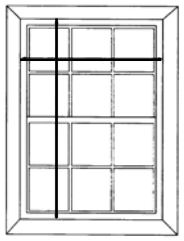

STANDARD FACTORY DEDUCTIONS		
Panel Track (no valance)	**Inside Mount (IM) / Ceiling Mount**	**Outside Mount(OM)**
Overall Height	- 1/2"	Ordered Height
Overall Width	- 1/4"	Ordered Width
Overall Fabric Width	- 1-3/8"(± 1/8")	Ordered Width - 7/8" (± 1/8")
Panel Track with Deluxe Valance	**Inside Mount**	
Overall Height	- 1/2"	
Overall Width	- 1/4"	
Overall Fabric Width	- 1-3/8"(± 1/8")	
Valance	- 1/8"	
Deluxe Valance Only	**Inside Mount**	
Valance	- 1/8"	

HOW TO MEASURE

Note: Projection of window handles / cranks could interfere with panel track panels.
Refer to *Mounting Depth Requirements* chart

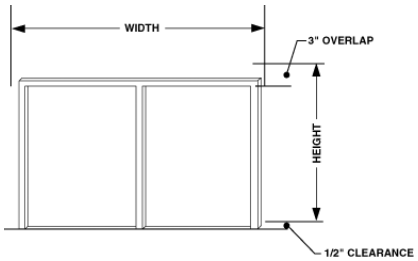

Inside Mount (IM) Installation - Window
To find width: Measure the opening across the top where the headrail is to be installed from inside of jamb on left to inside of jamb on right. **Round the measurement down to the nearest 1/8". Refer to mounting depth requirements**.

To find height: Measure from the inside top of the opening on the left, at the center, and on the right to the sill; **round the measurement down to the nearest 1/8" and note the smallest dimension. Do not make any allowances: the factory will make all adjustments so the headrail will fit the opening properly and the panels will clear the sill by 1/2**".

Inside Mount

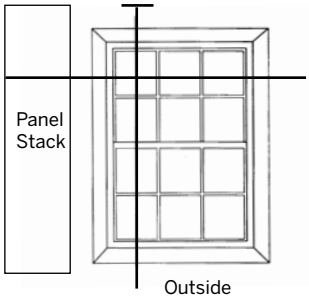

Outside Mount (OM) Installation –
To find width: Measure the width of the area to be covered at the place where the headrail will be installed to the nearest 1/8". Blind should overlap opening at least 4" on each side.

To find height: Measure the height of the area to be covered and **round down to the nearest 1/8"**. Blind should extend **at least 3" above opening or window moulding**.
For ceiling-to-floor installations, deduct 1/2" for proper clearance.

Outside Mount (OM) Installation – Window
To find width: Measure the width of the area to be covered at the place where the headrail will be installed to the nearest 1/8". Blind should overlap **opening at least 4"** on each side to ensure privacy. To calculate stack dimensions, refer to page 7.

To find height: Measure the height of the area to be covered and **round down to the nearest 1/8"**. Blind should extend **at least 3" above and 3" below opening or window moulding.**

Outside Mount

Specifying OM measurement means the factory makes no allowances.

Special Measuring & Installation Considerations

Caution: Panel Tracks installed on windows near wall or baseboard heaters must clear the heaters by 12" above and 6" to the side.

Stretching of panel materials is probable with Textured materials:

IM Mount - we do not recommend IM mount due to probable stretching

OM Mount - extra adjustment recommended for placement of mounting brackets allowing panel clearance above the floor to anticipate panel material stretching:
• material can stretch up to 1" length

LEVOLOR® LIMITED LIFETIME WARRANTY FOR CUSTOM BLINDS AND SHADES

What is Covered?

LEVOLOR® extends a limited lifetime warranty on the enclosed product to the original residential retail purchaser only if the product was properly installed and remains in the original window.

The product is covered against manufacturing defects (i. e., a flaw in the product design, materials or workmanship that causes the product to no longer function) and has a limited lifetime warranty. Lifetime warranty extends for the life of the product as defined by category:

Product	From Date of Manufacture
Banded Shades	10 years
Cellular Shades	10 years
Faux Wood Blinds	10 years
Panel Track Shades	10 years
Real Wood Blinds	10 years
Roller Shades	10 years
Sheer Shadings	10 years
Vertical Blinds	10 years (with the exception of vertical vinyl vanes)
Vertical vinyl vanes	3 years
Operating System	**From Date of Manufacture**
InMotion™ (includes accessories)	5 years

What is Not Covered?

Normal wear and tear
Any product that fails due to:

- Abuse
- Accident
- Alterations
- Damage from pets/insects
- Exposure to salt air
- Extraordinary use
- Improper cleaning
- Improper handling
- Improper installation
- Improper operation
- Misapplication
- Misuse

Any product that, with the passage of time, exhibits:

- Loss of colour intensity (including, but not limited to fabric, plastic parts, and wood finishes)
- Loss of pleating if product is not held in raised position a portion of the time
- Yellowing or cracking of plastic parts or faux wood product
- Creeping, sagging, or billowing of cordless product that is not properly raised and lowered daily

Natural material (including, but not limited to wood, grass, jute, reeds) products that have:

- Variation in colour, grain, or texture
- Warping or cracking of wood slats in high-humidity and/or in high-heat areas

Costs associated with:

- Product removal
- Product remeasure
- Product reinstallation
- Transportation to and from the retailer
- Incidental or consequential damages
- Shipping
- Brand label removal

In the event there are multiple blinds/shades in the same room, only the defective blind /shade will be replaced.

To Report Shipping Damage

If damage occurred during shipping, call 1-800-538-6567 and report within 14 calendar days of delivery or you may be denied credit for your damaged product.

To Obtain Service

For online product-specific trouble shooting information, refer to www.levolor.ca

If you suspect this Levolor product has a manufacturing defect in materials or workmanship:

1. Locate the sales receipt (proof of purchase)
2. Call 1-800-538-6567

Any unauthorized returns will not be accepted.

Warranty Remedy

THIS SHALL BE YOUR SOLE REMEDY UNDER THIS LIMITED WARRANTY
If this Levolor product is found to have a manufacturing defect in materials or workmanship, we will (at our discretion) do one of the following:

- Repair the product
- Replace the product
- Refund the cost of the product

- Colours vary from lot to lot and may not exactly match sample swatch or previous purchases
- Discontinued items or colour selections will be replaced with the closest equivalent current product

Your Rights Under State or Provincial Law

This limited lifetime warranty gives you specific legal rights, and you may have other rights, which vary from state to state/province to province. Some states/provinces do not allow limitations on how long a warranty lasts, so the above limitations may not apply to you.

No agent, representative, dealer, or unauthorized employee has the authority to increase or alter the obligation of this warranty. This limited lifetime warranty supersedes any previous versions.
